

TEMPE POLICE: Their Own Story

Tempe Police: Their Own Story

The size, roles, and technology of the Tempe Police Department have changed as Tempe has grown. In addition, the Department's excellent handling of special events makes it a model for other local cities. In this exhibit, see the changes in police technology, learn the many new roles, and hear officers tell their own story about what it is like to be a Tempe police officer.

Bring your camera for a photo opportunity of you sitting on a real Tempe Police motorcycle. Stand under the 32-foot wingspan of the Tempe Police Department's ultralight that was used in the 1980s. Put yourself in the role of dispatcher as you listen to live radio calls, and much more!

The exhibit is open through spring 2008.
